

Pulse Water Sculpture

Cylindrical ribs create a pulsing, wave-like movement as water alternately accelerates and slows down the undulating surface. A self-contained sculpture, the Pulse is available with a raised base for terraces, or a larger diameter recessed base. Polished, marine-grade stainless steel construction.

Height (above ground) 160cm. Can be made up to 200cm high.

Diameter at top 25cm.

Base dimensions (below ground) diameter 50cm, depth 40cm.
